

MITSUBISHI HITACHI POWER SYSTEMS SUPPLIER DIVERSITY OUTREACH EVENT

The Virginia Department of Small Business and Supplier Diversity will be partnering with Mitsubishi Hitachi Power Systems America, Inc. to host a Supplier Diversity meeting to network with local certified diverse suppliers in the Power Generation Industry.

Mitsubishi is providing 3 M501J Gas Turbines for the Greensville County Power station, located in Emporia, VA. The plant is a 3x1 combined cycle facility with the capacity of generating nearly 1,600 MW. Construction started on June of 2016, with completion expected to be December 2018.

Targeted Industries: Machine Shops, Environmental Services, Equipment Rental, Electrical Supplies, Safety Equipment

Date:

January 18, 2017

Time:

Registration/Networking 8:00 am- 9:00 am - *Light Refreshments Provided*
Program 9:00 am – 11:00 am (depending on speakers)

Location:

Greensville County Ruritan Club
370 Ruritan Drive, Emporia, VA 23847

No fee, but RSVP is required. To register [CLICK HERE](#)

PLEASE NOTE: This is an opportunity to network and meet with certified diverse suppliers, with whom we can potentially work together on this and/or future projects. This meeting will be for informational purposes only.
